SEASON'S GREETINGS

The Stereo Shop provides you with the best sounding stereo equipment and the most professional service.

Celebrating 40 Years since 1959!

What was true then is true today:
QUALITY • KNOWLEDGE • EXPERIENCE

McINTOSH...STILL THE BEST

McIntosh Laboratory designs and builds the finest home theater and stereo components available today. Hand-built in the United States since 1949, McIntosh components are synonymous with the words "highest quality." These rugged, long-lasting, beautifully finished instruments are the ideal choice for maximum performance in any music system, home theater or multi-room installation. McIntosh's brand-new line is their absolute best, taking full advantage of rapidly changing digital technology for longest-lasting performance. The Stereo Shop will help you design and install a McIntosh system that will provide years of superb entertainment for your family.

McIntosh MX-132

McIntosh Home Theater and More The heart of this system is the brand-new McIntosh **MX-132**. It's two control centers in one, able to simultaneously control home theater and play music in other parts of your home. This is the unit Dolby Labs chose for their own system! This is the finest, best-looking, easiest to use and most flexible home theater control center available! It's a full featured preamplifier with 11

audio/video inputs, 6 digital inputs, and provides processing for the new DTS (Digital Theater System) format, Dolby Digital and Dolby Pro Logic surround formats. Built-in is the legendary McIntosh AM/FM tuner. Also featured are "S" and composite video inputs and outputs, amplified video switching, and surround calibration for perfect sonic balance. Don't settle for less - this unit will last and is tremendous fun. -

McIntosh MX-132...\$6,500.00

McIntosh MC-7205

The McIntosh **MC-7205** is the perfect five-channel home theater amplifier, and matches the MX-132. Specially designed for the 5.1 format, (the sixth, or .1 channel, goes to a powered subwoofer), this is a 1,000 watt amp! Each of five channels delivers 200 watts of power, protected against clipping by patented PowerGuard circuitry. Sentry Monitor circuits protect the MC-7205 under the most extreme operating conditions. This amplifier is classic McIntosh, with illuminated glass panel and power meters. **McIntosh MC-7205...\$4,500**

For the best of both worlds, the speakers in this system are engineered for maximum music and home theater performance by McIntosh. The left and right front channels are the **SL-6**, an advanced floor-standing, three way system with three dome tweeters in a vertical array. This system provides magnificent

McIntosh SL-6

sound for DTS soundtracks, compact discs, DVD and laserdisc movies, and excels when used as the front channels in a home theater system.

McIntosh HT-4

Matched to the SL-6 is the McIntosh **HT-4** center channel speaker, a full-range, low profile monitor that is easily placed atop your TV monitor. The surround speakers are also full-range floor-standing SL-6s, for absolute best rear channel performance. To round out this speaker system is the fabulous powered **SL-1** subwoofer with thunderous bass and low distortion. This no-holds-barred home theater system will take you anywhere you want to go!

McIntosh SL-1

SL-6 front/rear speakers...\$1250.00 ea.

HT-4 center channel...\$1100.00

SL-2 subwoofer...\$2000.00

**McIntosh Home Theater System
\$18,500.00**

Compact Disc Player

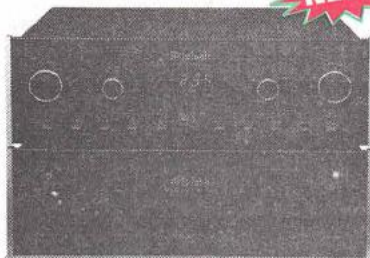

McIntosh MCD-7010

The **MCD-7010** is the best sounding one-unit player we have heard yet! Upgrade today to finest detail, widest soundstage and most natural sound. It is so easy to place and use, looks so good, and sounds so musical, you won't even think of anything else! The build quality is exquisite, and refinements include state-of-the-art digital to analog converters, 20 bit, 8 times oversampling, and timeless McIntosh front glass panel finish.

MCD-7010...\$3,500.00

Preamplifiers

McIntosh C-100

The incredible **C-100** preamplifier, perhaps the finest in the world, is built to space program standards (higher than military spec!), with optical controls and electromagnetic switching that will never wear out! The most important part of any system is the preamplifier. With the C-100, your music will acquire the height, depth, breadth and detail of a real-life performance that will astonish and delight you. You can even hear the air around each instrument!

McIntosh C-100...\$6,500.00

McIntosh C-15

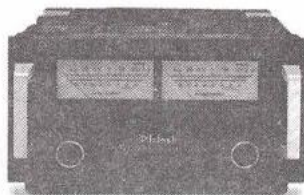

The brand-new **C-15** preamplifier is a slimline design with McIntosh's patented gorgeous front glass panel and backlit

fascia, and electromagnetic switches for long life. This preamplifier will make any audiophile system come alive and best of all, it is built like a McIntosh, offering years of trouble free performance.

McIntosh C-15...\$1,495.00

Power Amplifiers

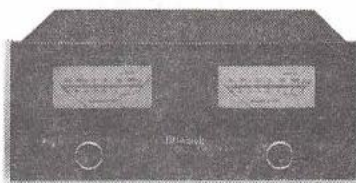

McIntosh's beautifully finished power amplifiers are a worldwide legend, combining ultra-refined performance with "bulletproof" construction. They feature McIntosh PowerGuard, which prevents the amp from being overdriven and distorting, and Sentry Monitor for internal protection, extending the life of the amp. Output wattmeters accurately report real power output. They are prime examples of what it means to be "built like a McIntosh" and why people say a McIntosh is "the best!"

McIntosh MC-500

MC-500 - Because of its 500 watts per channel of power, this amp provides the largest and most realistic soundstage. -

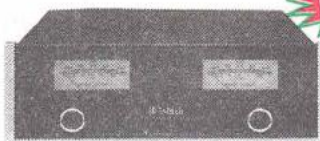

McIntosh MC-500...\$7,000.00

McIntosh MC-300

MC-300 - Just like the MC-500, with just a little less power at 300 watts per channel, this is a true audiophile amplifier that can drive any speaker system to full volume with power to spare!

McIntosh MC-300...\$4,000.00

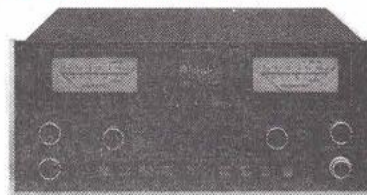

McIntosh MC-162

MC-162 - 160 watts per channel. One of the greatest buys in high-quality amplifier performance! With meters.

McIntosh MC-162...\$2,200.00

Integrated Amplifiers

McIntosh MA-6450

If you have limited space, or you like convenience, how about a McIntosh preamp and power amplifier on one chassis? Power meters, backlit glass front panel, Sentry Monitor and PowerGuard are essential McIntosh features in a convenient, flexible, compact design! In two sizes - **MA-6450** with 100 watts per channel (**\$2,200.00**), and **MA-6850** with 150 watts per channel (**\$3,500.00**).

McIntosh AM/FM Tuner

McIntosh MR-7084

The legendary **MR-7084**, for best-sound, best reception and built like a MAC! Add this to a McIntosh integrated amplifier for the best receiver you can buy!

MR-7084...\$1,495.00

McINTOSH...STILL THE BEST

THIEL

Ultimate Performance Loudspeakers

THIEL speakers, among the finest available, are world-renowned for their ability to naturally and realistically reproduce music. They bring home entertainment of any type to new levels of enjoyment. "Coherent source" design ensures spatial and timing accuracy to bring reality to music.

THIEL speakers are easily placed in any living room and are a visual delight. Exquisite standard cabinet finishes such as Walnut, Black Ash, White Oak, and Natural Cherry are featured. Special finishes such as Pickled Oak, Birds-eye Maple, Teak, Amberwood, and many more are also available.

SCS2 - A small, magnetically shielded two-way bookshelf speaker designed for high performance music and video sound. It performs equally well as a full-range stereo pair or, with five, as a first-class home theater system! Size: 7" x 10" x 19"
Thiel SCS2...\$995.00 ea.

SCS2

CS.5 - A two-way, ported, floor-standing loudspeaker offering high performance in a compact, easy-to-place cabinet. Completely time and phase coherent, the CS.5 provides a dimension of clarity and realism that conventional speakers in its price class cannot achieve, making it ideal for both music and video sound. It uses the

CS.5

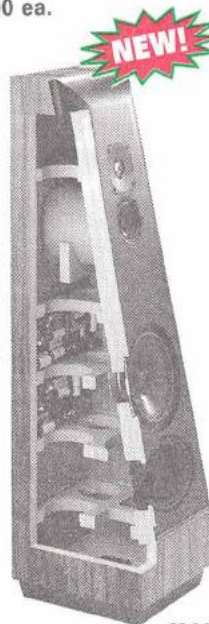

same quality materials as the more expensive THIEL models - a die-cast magnesium woofer chassis, select grade capacitors, and rigid, 1-inch thick cabinet walls. Size: 8" x 11" x 31"
Thiel CS.5...\$725.00 ea.

CS 1.5 - Small in size but not in sound! Standing only 33 inches tall, 8.5 inches wide, and 11 inches deep, the CS 1.5 delivers bass to 42Hz, projects a realistic, three dimensional sound-stage and provides a very high degree of tonal, transient, and dynamic accuracy. Its solid construction features a 2-inch thick baffle, 1-inch thick cabinet walls and extensive internal bracing. By reducing unwanted vibration, both clarity and imaging are improved. Size: 8" x 11" x 33"
Thiel CS-1.5...\$1,095.00 ea.

CS 1.5

CS 2.3 - The latest THIEL monitor is in the middle of the line, but is similar to their acclaimed top model, the CS 6. Like the CS 6, the CS 2.3 features a 1-inch tweeter coaxially mounted within a midrange driver. The CS 2.3 uses an 8" aluminum woofer with a passive radiator, bringing bass down to below 35 Hz. The performance of the CS 2.3 should be compared to any speaker available at any price! Size: 12" x 13" x 42"
Thiel CS-2.3...\$1,795.00 ea.

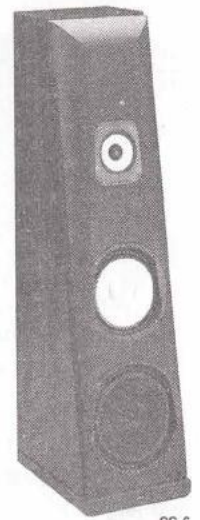

CS 2.3

CS-3.6 - This speaker provides extremely faithful reproduction of all musical information, from the deepest bass to the uppermost harmonics. It employs a 10-inch woofer, passive bass radiator, 4.5 inch midrange, and 1 inch tweeter to provide dynamic sound down to 29 Hz. THIEL's superb attention to construction detail provides excellent clarity, superior imaging, life-like dynamics, and extremely accurate tonal response. Size: 12" x 17" x 48"
Thiel CS-3.6...\$2,150 ea.

CS 3.6

CS 6 - For a large, accurate sound-stage, low distortion, and excellent imaging. This magnificent loud-speaker employs a 1-inch tweeter coaxially mounted within a 4-inch midrange driver, a passive bass radiator, and a 10-inch aluminum woofer with a massive 20 pound magnet structure, bringing bass down to an astounding 27 Hz. Size: 13" x 18" x 50"
Thiel CS-6...\$ 3,950.00 ea

CS 6

Conrad-Johnson of Fairfax, Virginia, is the maker of some of the world's finest stereo equipment. Their claim to fame is their marvelous tube and transistor preamplifiers and power amplifiers, which sound absolutely glorious! While Conrad-Johnson products are as good as any in the rarefied realm of "the absolute best," their focus is on bringing demanding music lovers the best sound possible at sensible prices. The Stereo Shop is proud to be Connecticut's only Conrad-Johnson representative, and we have their full line of exquisite components for your evaluation. Their obsession for affordable perfection has enabled their components to be judged the equivalent of others costing two, three, even five times as much

Tube Preamplifiers

New technology tube preamplifiers are very popular because of their extremely rich, musical sound. Conrad-Johnson tube preamplifiers are audiophile favorites because of their excellent sound, build quality and value. The **PV-10AL (\$1,195.00)** is the most popular

Conrad-Johnson PV-10AL

tube preamp in the world, and is an "instant upgrade" to your system. For a bit more refinement and detail, consider the **PV-12AL (\$1,995.00)**, one of the finest tube preamplifiers available.

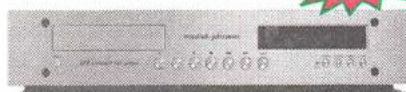

Tube Preamps and Solid State Power Amps: A Great Combination

A lot of people are making the most out of their systems. If you have a solid state

amp, just drop in a Conrad-Johnson tube preamplifier and prepare to be amazed and pleased! The inherent musicality of the tube preamp combined with the power and speed of a solid state power amp brings the best of both worlds together for truly wonderful sound! Try it!

Compact Disc Player

Conrad-Johnson DV-2B

The **DV-2B** takes advantages of the best tube equipment in its analog section along with a state-of-the-art digital to analog converter for rich, musical sound. Beautifully finished in champagne gold.

DV-2B...\$2,495.00

Tube Power Amplifier

Conrad-Johnson Premier Eleven

Premier Eleven - Redefine your expectations with the highest level of quality in tube amplification at a reasonable cost. With 70 watts per channel, this stereo amplifier sets the standard of performance in the lucid and true-to-life presentation of music. Conrad-Johnson **Premier 11...\$3,495.00**

Sonographe Power Amplifiers

Conrad-Johnson's solid state **Sonographe** power amplifiers are the new value in high-end performance,

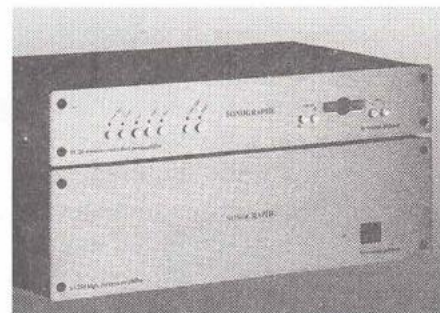

providing incredible musical refinement at unheard-of low prices!

Conrad-Johnson Sonographe SA-400

Sonographe SA-400 - At 200 watts per channel, plenty of power and fantastic sound.

Sonographe SA-400...\$1695.00

Conrad-Johnson Sonographe SA-250

Sonographe SA-250 - With 125 watts per channel, this amp is the finest in its price class.

Sonographe SA-250...\$1195.00

California Audio Lab CL-10

California Audio Labs

California Audio Labs compact disc players have always been among the finest available. Now, they enter a new age of excellence with the **CL-5**, finest carousel changer in the world, and the **CL-10**, a "high end" one-unit single-disc player for devoted audiophiles, with HDCD decoding.

CL-5...\$995.00 CL-10...\$1,495.00

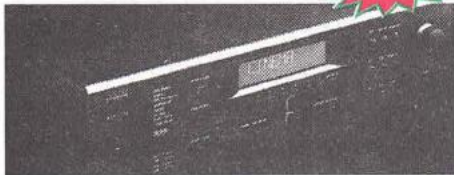

conrad-johnson
It just sounds right.

ADCOM®

High End Performance Without the High End Price

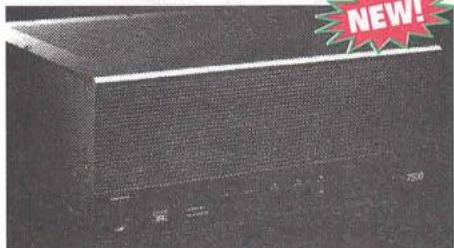

Since the 1970s, Adcom has consistently delivered state-of-the-art audio/video components that are easy to use at affordable prices, and their numerous awards year after year prove they are never satisfied to rest on their reputation. Their new CD players, preamp/tuners and power amplifiers (both stereo and home theater) are perfect for the audiophile who wants maximum performance at an excellent price.

Home Theater

GTP-740 Surround Sound Tuner/Preamp - Adcom's latest home theater control center, with Dolby Digital and excellent Adcom features and performance.

GTP-740...\$1,495.00

GFA-7500 Power Amp - Five-channel THX-certified with 150 watts per channel.

Adcom GFA-7500...\$1,495.00

GFA-7400 Power Amp - Five channel with 100 watts each into three front

channels, 60 watts each into two rear channels.

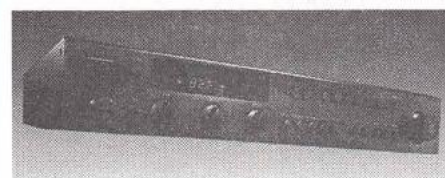

Adcom GFA-7400...\$995.00

Compact Disc Changer

GCD-700 - A great-sounding CD carousel changer, with isolated transport and 20-bit Burr Brown D/A converters.

Adcom GCD-700...\$695.00

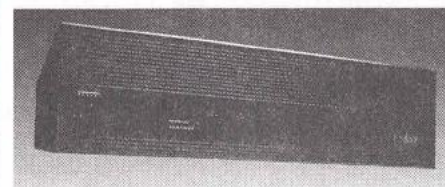

GTP-450 Tuner/Preamp - With remote control, electronic switching and the sound of separate components, this preamp/tuner combination is sonically superior to many separate preamps and tuners costing much more. A preamp/tuner allows you to choose your own power amp. Enjoy the convenience of a receiver with the sound quality of separate components!

Adcom GTP-450...\$ 495.00

GFA-5500 Power Amplifier - Great sound and plenty of power, with 200 watts per channel.

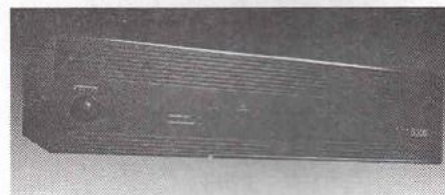

Adcom GFA-5500...\$999.00

quality, with 125 watts per channel.

Adcom GFA-5400...\$680.00

GFA-5300 Power Amplifier - For medium rooms, with 80 watts per channel.

Adcom GFA-5300...\$449.00

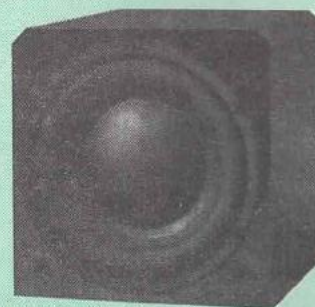

GFA-5200 Power Amplifier - Perfect for smaller systems, with 50 watts per channel.

Adcom GFA- 5200...\$349.00

Velodyne®

Enjoy a new level of performance with our finest subwoofers by Velodyne! Brimming with new technology, they're incredibly small and can be placed unobtrusively anywhere in a room, yet they outperform other subwoofers many times their size. A built-in 1,000 watt amplifier and servo technology make them giant-killers. You'll love it! In two sizes, 10" woofer and 12" woofer.

HGS-12 Subwoofer

HGS-10...\$1,599.00 HGS-12...\$1,999.00

LISTEN AND YOU'LL SEE

For music lovers throughout the world, one loudspeaker manufacturer has set the pace which all must follow - B&W. In over 30 years, they have remodeled the audio landscape by adapting such advanced materials as Kevlar and Cobex, and inventing matrix cabinet bracing and separate tweeter housings. All have been critical in clarifying sound response to unprecedented levels of accuracy.

B&W's Finest Nautilus 800 Series

Radical in concept, astonishing in reality, is the world's first "cabinetless" loudspeaker. Because cabinets tend to create their own resonances, B&W's new Nautilus enclosures are designed to eliminate cabinet resonances and coloration altogether. The result is **music reproduction that is as good as it gets!** Computer simulations show, and the most discerning ears confirm, that the net result of this unique new technology is the complete obliteration of unwanted cabinet resonance and perfectly transparent, flawless sound.

B&W N801

The reference N801 features a 15" woofer, 6" midrange and 1" tweeter. The elegant N802 offers nearly all the performance of the N801, but is better

suited to most living rooms with two 8" woofers. The 803 and 804 are floor-standing speakers, and the 805 is a small bookshelf. Come and audition the finest new speakers from B&W!

N801...\$11,000.00 pr.

N802...\$8,000.00 pr.

N803...\$5,000.00 pr.

N804...\$3,500.00 pr.

N805...\$2,000.00 pr.

600 Series

This series features Kevlar bass/midrange drivers and aluminum dome tweeters in very affordable bookshelf and floor standing models attractively finished in black.

DM-601 - Bookshelf model, with 6.5-inch Kevlar driver, 1-inch tweeter.

B&W DM-601...\$395.00 pr.

DM-602 - Larger bookshelf, with 7-inch Kevlar driver and 1-inch tweeter.

B&W DM-602...\$549.00 pr.

DM-603 - Small tower with 7-inch passive bass radiator, 7-inch Kevlar driver and 1-inch tweeter.

B&W DM-603...\$995.00 pr.

B&W 600 Series

DM-604 - Larger tower with 7-inch Cobex woofer, 7-inch Kevlar bass/midrange and 1-inch tweeter.
B&W DM-602...\$1,595.00 pr.

The Legend Continues

New B&W 300 Series

These new speakers emphasize the best performance at extremely affordable prices! The **DM300** series includes a small floor standing speaker and a small

B&W DM302

bookshelf speaker. Don't let the sizes fool you. The sound rivals that of far larger and costlier speakers. The secret is the cutting-edge technology B&W brings to cabinet and driver construction. B&W's "prism" system in cabinet construction involves a series of tapered wedges on the rear panel, projecting into the cabinet, simulating an anechoic test chamber environment. The result is cleaner, crisper sound from a smaller speaker. The CM302 small bookshelf includes a 1" tweeter and 5" woofer, and the CM305 small tower features a 1" tweeter and 6 1/2" woofer.

DM-302...\$250.00 pr.

DM-305...\$450.00 pr.

YAMAHA

Yamaha's latest line of home entertainment products will astonish you with their combination of high quality, cutting edge technology, versatility and value. From their most advanced home theater products to their least expensive receiver, the same care is evident in the silky feel of the controls, and the effortless ability to provide you superb entertainment for many years to come.

Maximum Home Theater

Yamaha DSP-A1

The mighty **DSP-A1** is the most complete expression of Yamaha digital technology available, with the power to turn your home into any music venue or movie theater you like! Yamaha's home theater masterpiece is an audio/video amplifier/processor that is truly state-of-the-art. Not only can you enjoy Yamaha's patented Digital Soundfield Processing, Tri-Field Cinema DSP (Digital Soundfield Processing) and

Dolby Digital, but you also get the latest - DTS (Digital Theater System) decoding. This is the new technology for maximum music reproduction, which you listen to through five channels and a subwoofer, just like your movies! DTS sound is so astonishingly good, you won't want to go back. The DSP-A1 even includes a 6-channel input to

upgrade to any new technology that will ever appear! The new Yamaha HiFi Digital Soundfields simulate world-renowned venues like The Bottom Line in New York City and Royaumont in Paris. Available in two colors - black and champagne finish.

DSP-A1 Black...\$2,595.00

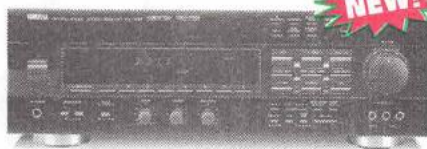

DSP-A1 Champagne...\$2,795.00

Home Theater

Yamaha's home theater receivers are the best available in their class and feature Yamaha's patented Cinema Digital Sound Processing (DSP) system, which brings the ambiance of a movie theater

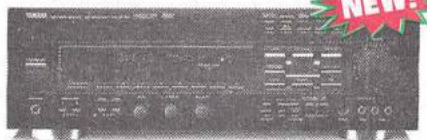

to your listening room. While the two top of the line receivers feature the new DTS (Digital Theater System) and Dolby Digital surround technologies, all Yamaha home theater receivers provide several music sound field programs (Hi Fi DSP) and all feature Dolby Pro Logic. Each is easy to use and comes with a newly designed remote control.

Yamaha RX-V2095

RX-V2095 - The ultimate home theater control center! Features the new DTS processing, along with Dolby Digital, Dolby Pro Logic and Hi Fi DSP. Capable of two room operation (home theater and music; each room is controlled with its own remote!) simultaneously. With over 550 watts of power, hefty power supply, five A/V and three audio inputs.

Yamaha RX-V2095...\$1,599.00

Yamaha RX-V795

RX-V795 - DTS and Dolby Digital home theater receiver, with 425 watts per channel, four A/V and three audio inputs.

Yamaha RX-V795...\$795.00

Yamaha RX-V595

RX-V595 - With 295 watts of power, three A/V and three audio inputs, Dolby Pro Logic and inputs for a Dolby Digital processor.

Yamaha RX-V595...\$495.00

Yamaha DVD-S700 DVD Player

Yamaha DVD-S700

Experience the crisp, exciting picture and sound of DVD discs with Yamaha's DVD-S700 DVD/CD player! This remarkable component plays back compact discs and DVD discs with super performance. Yamaha provides the ultimate in DVD quality and convenience.

Yamaha DVD-S700...\$699.00

Yamaha's stereo receivers are engineered to provide large amounts of reserve power for accurate reproduction of the high energy peaks that are especially prevalent in digital audio sources. Each one is built to be the best in its class, with high quality parts and construction and the flexibility, convenience and ease of use you want in a sophisticated audio component. Each one comes equipped with excellent sound quality and remote, varying only in power and features.

Yamaha RX-770

RX-770 - With 85 watts per channel, variable loudness control, record out selector, and pre-in main-out coupler.

Yamaha RX-770...\$549.00

Yamaha RX-596

RX-596 - With 80 watts per channel, variable loudness control, record out selector and CD direct amplification circuit (bypasses several amp circuits).

Yamaha RX-596...\$395.00

Yamaha RX-496

RX-496 - With 70 watts per channel, two tape monitors, variable loudness, and pure direct circuit (bypasses tone controls).

Yamaha RX-496...\$295.00

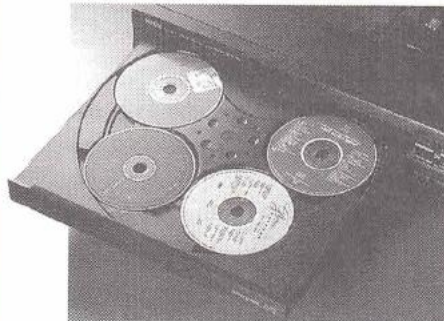

Yamaha RX-396

RX-396 - With 45 watts per channel, variable loudness control, three audio inputs

with one tape monitor.

Yamaha RX-396...\$249.00

Compact Disc Changers

Yamaha compact disc changers are great-sounding and easy to use! Yamaha developed Pro-Bit, an innovative D/A conversion technique that delivers a smoother, more musical signal. Yamaha also made CD changers more convenient, with their five-disc carousel players and **PlayXchange**, allowing you to change up to four discs while a fifth

PLAYXCHANGE™

continues to play. This next generation of Yamaha CD players provides higher performance with greater quality and convenience.

Yamaha CDC-765

CDC-765 - Yamaha's best-sounding CD player is a five-disc carousel changer with PlayXchange, 20-track program, random and repeat play, and much more.

Yamaha CDC-765...\$349.00

Yamaha CDC-665

CDC-665 - Five-disc carousel changer with PlayXchange, 20-track program play, 10-key direct track access, and

many more features.

Yamaha CDC-665...\$269.00

Yamaha CDC-565

CDC-565 - Yamaha's least expensive five-disc carousel changer provides excellent sound, PlayXchange, 20-track program and more.

Yamaha CDC-565...Special Price \$189.00

Cassette Decks

Cassettes remain an important music source, both at home and in cars. Yamaha, already a leader in cassette deck design, has upgraded their technology to provide even higher sound quality. They have also made operation more convenient, so you can access music faster and easier. Whichever you select, your Yamaha cassette deck will be a pleasure to listen to and use for years to come.

NAD

Founded 25 years ago, **NAD** is an international association of high fidelity specialists. By studying actual listening in realistic environments and the interaction between components, NAD has produced a level of performance far beyond that which mere specifications suggest. NAD achieves value by spending money on the inside rather than putting lots of knobs, buttons and lights on the outside. NAD has earned a reputation for making high-value components that sound marvelous and cost relatively little. In the past 25 years, many brands have come and gone, but NAD remains due to its simple founding principles: NAD products sound good, they are easy to use, they provide truly useful features and they offer great value for the money.

CD Changer

NAD 515

515 - This is NAD's great-sounding five-disc carousel changer, with the performance of a single drawer player. NAD has put all their experience in creating true home entertainment value into this amazing changer. Hear the warmth and musicality of your compact discs for the first time!

NAD 515...\$495.00

NAD 522

522 - Here is NAD's famous "giant killer" single-play CD player - the one that sounds like others three times the price!
NAD 522...\$299.00

Integrated Amplifiers

NAD 314

314 - Another wonderful value from NAD, this 35 watt per channel integrated amp offers six inputs (including two tape). Not only does it sound really good, but its Extended Dynamic Power circuitry kicks its power up to 120 watts per channel when needed!

NAD 314...\$399.00

NAD 317

317 - Put a compact powerhouse in your system, with the sonic refinement you expect from separates! This amplifier is all you need to get the most from your music, because NAD technology lets you jump from 60 watts per channel to almost 200 watts per channel on the most difficult and demanding musical passages. Perfect for serious audiophiles on a budget.

NAD 317...\$749.00

Boston Acoustics

Advanced Engineering Makes The Difference

Compact Reference Speakers These bookshelf speakers are among the finest available, can be placed almost anywhere and sound tremendous! Tweeters are placed close to the woofer for point-source configuration and seamless sound. Boston's Deep Channel Design (DCD) allows woofers to move a tremendous amount of air with ease, for great bass response. Build a home theater

around these great small monitors, place them on walls or shelves, or take them to school for the dorm room. With their inexpensive price and great sound, the CR series make sense for anyone who wants great sound in a smaller space.

Definitive Technology®

The **Definitive Technology** line of slender, elegant, black lacquer finish floor-standing tower speakers can be easily and attractively placed in your home environment, yet provides a huge, natural soundstage of spectacular three-dimensional depth and breadth. They accomplish this with bipolar driver arrays - one set facing forward and the other facing to the rear - that radiate sound in an omnidirectional pattern much like sound is reproduced in real life.

BP2000 and BP2002 -

These flagship towers have literally re-invented the loudspeaker! They combine multi-driver bipolar arrays with complete built-in side-firing high wattage powered subwoofers built into beautiful, designer-styled cabinets which occupy less than one square foot of floor space! The result is awe inspiring deep, rich bass response effortlessly extending below 15 Hz!

BP2000 (15" subwoofer)

Size: 9" x 17" x 50"...\$1,499.00 ea.

BP2002 (12" subwoofer)

Definitive's Bipolar Surround Speakers and Center Channels

These are the perfect rear surround speakers because their bipolar design sends sound into an exceptionally wide, three-dimensional soundstage. They will improve the rear channels of any home system. Definitive also pioneered the concept of full-range high-definition center channel speakers. They sound great! Rear surrounds start at...\$350.00 per

pair, Center channel speakers start at...\$199.00 each.

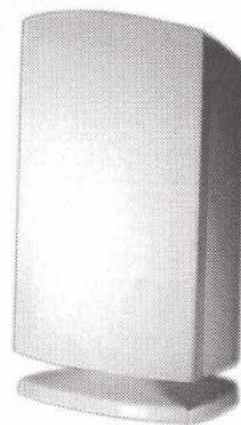

A Strong Foundation

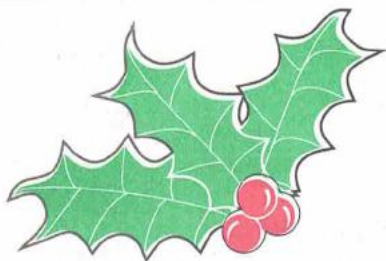

As home theater enthusiasts know, nothing equals the floor shaking power and startling impact of a great subwoofer. The Stereo Shop is pleased to present the Definitive Technology **PF** series, with phenomenal low frequency extension and wide dynamic range. They are ultra fast, very powerful and can literally shake even concrete floors! Available in 18", 15" or 12" size Definitive Technology
PF-18TL: \$999.00
PF-15TL: \$699.00
PF-12TL: \$549.00

Pro Cinema

No room for floor speakers? Definitive's **ProCinema** series are perfect for home theater or music! For wall or bookshelf, they're an excellent solution for great sound in

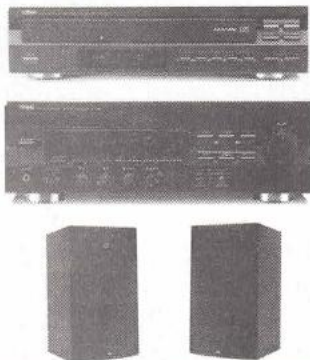

smaller spaces, the ProMonitor 100's (**\$175.00 each**) use a 5 1/4" woofer and 1" tweeter. For deep bass add the ProSub 100 (**\$450.00**), a high power (125 watt) subwoofer with a 10" woofer. Add the ProCenter100 (**\$199.00**) and two more ProMonitor 100's to complete your home theater!

Nick, Bob and Richard have designed these fantastic music systems to provide you the absolute best sound and value at their prices. They sound excellent and offer superior build quality and reliability. We have these systems on display for your evaluation and we are sure you will agree they provide first-class entertainment. At the Stereo Shop, there is no substitute for quality, knowledge and experience. Equipment on these pages is discussed elsewhere in our holiday newsletter for more detailed descriptions. Please call us at 523-7250 for information anytime!

Good
